# HS module

**IS THE PROJECT OF AN INNOVATIVE MODULE ON SENSORY PROCESSING SENSITIVITY AND ENVIRONMENTAL SENSITIVITY, AS WELL AS DEVELOPING THE POTENTIAL TO IMPLEMENT THE MODULE IN HUMAN SCIENCE COURSES.**

## What is the aim of the project?

The aim of the project, „High sensitivity - innovative module in human sciences” is cooperation at the academic level between partners from Poland, Italy, Spain and Romania in the area of high sensitivity.

## For whom?

The recipients of the planned activities are universities, i.e. University of Economics and Innovation in Lublin, University of Alicante and partner universities cooperating with the City of Rome and the Association of Experts Psy from Romania. Materials will also be prepared for teaching staff interested in the topic of high sensitivity.

## Project results

# 1

### GUIDE

approaches basic issues, identifies formal, legal, organisational opportunities for the inclusion of the area of high sensitivity as a module in the various programmes of study related to the human sciences.

# 2

### MODULE PROGRAMME

extending the curriculum of studies in the fields of pedagogy, psychology or nursing for partner universities and other academic centres interested in implementing the module.

# 3

### ACADEMIC HANDBOOK

providing knowledge on sensory processing sensitivity and environmental sensitivity, bringing research in the above field closer.

# 4

### MULTIMEDIA LIBRARY

which is a collection of didactic materials for teachers, teaching staff and students. They will be made available on the project website as open educational resources.
